7. Up / Down

8. Microphone

BUTTONS

- Hold and press REC in **working mode** to record a voice greeting. Press button once to listen recording.
- Press once PLAY in **working mode** to give your pet 1 portion of food (app 10 grammes).
- Hold and press SET in **working mode** to set Smart Pet Feeder's time. Button is also used to programm Automatic Feeding (see next page of this User's Guide). In **safe mode** long press the button to activate working mode.
- Use UP / DOWN arrows in **working mode** to adjust Smart Pet Feeder's time and programm Automatic Feeding (next page of this User's Guide). Use to adjust portion size.

WORKING MODES

WORKING MODE: you can adjust Smart Pet Feeder's time, schedule Automatic Feeding, adjust portion's size, record a greeting. Green light and LCD Display must be on.

SAFE MODE: Green light and LCD Display must be off.

To switch from Safe Mode to Working Mode you need to press and hold "SET" button until LCD Display will light up. If you don't press any buttons for 10 seconds, device will switch to Safe Mode automatically.

LIGHT INDICATOR

Lights on the top of Smart Pet Feeder:

- **Green light** indicates Working Mode. In Safe Mode is off.
- **Red light** indicates that device is recording audio.

- Suitable only for dry food with diameter 5-15 mm
- Each meal size is up to 9 portions. 1 portion = 10 g.
- Don't forget to refill device, when food is not enough.

AUTOMATIC FEEDING

1 UNBLOCK

Press and hold "SET" button for 4-5 seconds. LCD display should light up.

2 CHOOSE MEAL

Use UP / DOWN buttons to choose meal you want to edit. You can schedule up to 4 meals

3 EDIT MEAL

Press and hold "SET" button to edit the meal you chose.

4 SET TIME

Use UP / DOWN arrows to set time, when you want Smart Pet Feeder to deliver food. Press "SET" button once to switch from hours to minutes.

5 ADJUST SIZE

Press "SET" button again after scheduling time. Now you can adjust portion size. With UP / DOWN you can choose from 1 to 9 portions. One portion is approximately 10 grams. Thus adjust between 10 and 90 grams.

MANUAL FEEDING

In [working mode](#) press "PLAY" button one time to give your pet one portion of food. One portion is approximately 10 grams.

RECORD A GREETING

With Smart Pet Feeder by FEED'EM you can record a greeting for your pet. It will be played every time Smart Pet Feeder delivers food. This way you can create illusion for your fluffy friend that you're always near. To record a greeting you must press and hold "RECORD" button in [working mode](#). Light on the top of device should change its color to red. It means that Smart Pet Feeder is recording. Say some warm words, like "Enjoy your meal, Buddy!" Recording will end when you release the button.
